"DU PUIITS" ALFALFA (Certified) for Heavier Yields

You can SEE THE DIFFERENCE with "DuPuits." As page 3 of your Hoffman Catalog illustrates, the extra vigor of this new alfalfa is truly remarkable. Sown alongside other strains, you can pick out "DuPuits" every time . . . with its healthy color and leaf spot resistance.

"DuPuits" jumps ahead of competing strains after each cutting . . . if always cut at the proper time you should get one extra cutting of finest quality hay. This extra cutting means more money in your pocket!

Hoffman is proud to have pioneered in introducing "DuPuits" in this area . . . you'll be proud to have it growing on your farm. Start toward that yield "Bonus" by seeding your alfalfa acreage in "DuPuits" this spring.

8 Other Fine Alfalfa Strains

Here the alfalfa grower can plan his acreage to give him maximum returns. Your Hoffman Catalog explains the merits of all these varieties . . . features the advantages of each strain to help you make your proper selection. With a long-lasting crop like alfalfa, your seed choice affects your income over a long time . . . buy good alfalfa seed always! Hoffman stands ready with seed selected to come through profitably for you.

Hoffman . . . CERTIFIED SEED OATS Can Help You Raise More Low-Cost "HOME-GROWN" Feed This Year

"CLINTLAND" OATS (Certified)

Crown Rust Resistant

The new improved strain with all the good qualities of Clinton, plus crown rust resistance. "Clintland" in Purdue tests outyielded older varieties by 5 bushels per acre. Stands up exceptionally well. Fast gaining in popularity in the Midwest oats-growing areas. Your Hoffman Catalog offers full information on "Clintland." It's a 'comer'!

"GARRY" OATS (Certified)

Heavier Yields per Acre

for
**TOP
CROPS**
in '57

Last year, even with seed costs very high, many folks turned to "Garry." Results were in line with experimental records . . . "Garry" came through fine in upper elevation Penna. areas and New York State. "Garry" is disease resistant, stiff-strawed, heavy-yielding. Destined for wide usage . . . let this Hoffman stock boost your oats profit!

Hoffman FARM SEEDS

Prices . . . February 22, 1957
(For Prompt Acceptance Only)

IMPORTANT: When you order a TOTAL of 3 up to 6 bushels of Alfalfa, Red Clover, Alsike and/or Mammoth Clover . . . (Total of 3 bushels) price by 40 cents. On totals of 6 bushels and over (same items) . . . figure 60 cents less per bushel. (Use the 'per-pound' quotation ONLY when ordering less than 1/2-bushel of these items.)

Hoffman TERMS

MONEY-BACK TERMS—In effect since 1899 Hoffman Seeds must be satisfactory to you on arrival. If they aren't, return them promptly—and your money will be refunded, also any freight you've paid.

SHIPMENT BY TRUCK—Prompt direct service from Landisville is now given by commercial trucklines . . . to many points. Probably to a town near you. Catalog explains details.

FREIGHT OR TRUCKING PAID WHEN—seed shipments weigh 100 pounds or more—into Pa., Md., Ohio, Mass., N. J., N. Y., Del., R. I., W. Va., Va., or Conn. (This does NOT apply to Seed Potatoes, which are shipped freight charges collect.)

BAGS ARE FREE—You don't have to figure anything "extra" for bags needed to ship seeds.

MAIL COST IS EXTRA—Hoffman does NOT pay the cost of mailing seed (except on items quoted "Postpaid" on Price List).

EXPRESS . . . TOO COSTLY—and charges NOT paid by Hoffman. If you demand express shipment, we'll mark charges COLLECT at your station. And if 100 pounds or over, allow you the amount we would have prepaid as "freight" charges.

HOW TO PAY—Most folks send payment (check or money order) right along with their seed order. Some prefer to have their seed shipped by railroad freight C. O. D., paying the freight agent when shipment arrives. This plan can be used ONLY if there IS AN AGENT at your station.

**"Pennscott" Clover (certified)
Tests Show 3/4 Ton Extra Yield**

Demand for this new development this spring is double that of a year ago. What better proof is there that "Pennscott" is doing just what it is supposed to do . . . namely, make more hay! "Pennscott" has disease resistance . . . was developed here in the East to meet our needs. Supply of seed this year is increased over last year, but demand is, too. Your prompt investment in "Pennscott" from Hoffman will pay off in extra yield and satisfaction.

Other Fine Hoffman Clover Selections

Here's a stock of finest "Kenland" clover, for the man who puts quality as the prime requirement in his hay crop. Also, regular red clover from reliable sources, cleaned right, for your protection. Alsike, Mammoth, Sweet Clover, Ladino . . . Hoffman stands ready with stocks of fine, adapted, clean seed for you.

Hoffman "FUNK-G" Seed for MORE CORN—Husking or Silage

More profit-minded Eastern farmers change to Funk-G seed each year because it pays them better! They're done 'trying out' this or that strain for some friend or relative who tries to sell it. There's a better way today. Their proving is done for them. Before they can buy the seed, Hoffman-Funk trained men are on this important job every year . . . now 20 straight.

Funk-G seed is bred to 'take it' when corn enemies strike. To fight off attacks of drought and disease, and still make fine yields! This product of Funk-G corn breeders has won its place on merit . . . against extravagant advertising for competing strains, and often lower-priced other seed. But Funk-G breeding tells . . . shows in users' cornfields — makes its gains that way.

If you're not already planting Funk-G, now is the time to change. Every acre must give you its maximum return to offset lowered values. No use waiting another year . . . this year's crop is too important.

There are special Funk-G strains to do your husking corn job; others excellent for ensilage use. Lack of space in this circular prevents detailed descriptions of all, but our Hoffman men are properly informed and will assign your proper Funk-G strain the day your order arrives. Depend on this service. Gain your 'best-yet' corn from Funk-G seed this year. Order today!

PASTURE MIXTURES

Here are blends popular for many years — for Highland . . . or Lowland. And, the Triple-Purpose Mixture for pasture, grass silage, or hay. If you want a special formula . . . Hoffman has all the grasses and legumes you need . . . can mix them here . . . or ship separately.

BIRDSFOOT TREFOIL

Shows amazing increase in use. Consult Hoffman Catalog for suggestions toward trefoil success. Choose between top quality European, Viking, or Empire strains. Trefoil stands thicken year after year for long-time pasture, hay, or silage.

HAY BLENDS

This year many folks will save on seed costs with "Economic Mixture" (1/2 Red Clover, 1/4 Alsike, 1/4 Timothy) and "Alsike and Timothy." This is money-saving seed . . . not "cheap" seed that may contain lots of weeds and trash.
